

Planning of activities for coming months

- Analysis of available methodologies considered relevant for CRC
- Collect experience of using specific methods from COMPERA members
- Discussion on the different kinds of methodologies based on experience of using a particular method for an agency
- Give recommendations related to different kinds of CRCs

Main elements of report on best practice in monitoring and evaluation

How do we measure?

- Result indicators used for monitoring and evaluation of centres
- Impact indicators as a basis for evaluation

Aspects to be considered

- Research dimension
- Innovation dimension
- Centre dimension

Process for evaluation

- Self-evaluation
- Expert panel/Peer review

What are the tasks, who are performing them and when should result be available?

Tasks

- Indicators (xx collecting and processing information)
 - Research-oriented CRCs
 - Innovation-oriented CRCs
 - Common indicators, (centre dimension)
- Evaluation process (yy collecting and processing information)

When

- Draft ready to be discussed in Workshop at COMPERA september meeting in Ljubliana
